

We are South Africa.

We are relentless patriots that believe in our country and our people.
A home for all.

We place South Africa first in our hearts, our minds, our thoughts
and our actions.

We understand that we need to live and breathe this for a truly
united and prosperous South Africa.

We serve our country with honour

We treat our people with dignity

We uphold our constitution with respect

We preserve our land with gratitude

We can. We will. We do.

The United Independent Movement Charter

The Founder and Leader of the United Independent Movement of South Africa, Mr. Neil De Beer, representing the leadership of the Movement, have deemed it right to make know certain common principles in the national policies of the organisation on which they base their hopes and aspirations for a better future for our country and all the people of the Republic of South Africa.

- SA 1st.
- We reject all forms of state, corporate and social corruption.
- Crime to be dealt with to the full extent of the law and that we implement a zero-tolerance policy.
- We stand for the rights of the citizens to have the freedom as set out by the constitution.
- That the individual, the independent member, may raise, continually, their current society's problems independently when necessary.
- That a collective grouping of ideologies, not negotiable, will be put down and agreed to those points will never be separated.
- Everything we do must be for We The People.
- Never must we allow any person to divide or conquer the UIM on its objective to ensure that this country remains united.
